40 lat
doświadczenia

Historia marki sięga roku 1981, kiedy przez Mikołaja Charkiewicza zostaje powołana do życia firma ChM. W roku 1985 rozpoczęto prace związane z produkcją prostych narzędzi chirurgicznych, a rok później, w 1986 r., powołano biuro projektowe, którego zadaniem było opracowywanie konstrukcji i technologii wytwarzania wyrobów stosowanych w ortopedii i traumatologii. Choć dostępna w tym czasie w Polsce wiedza na temat materiałów, technologii czy funkcjonowania narzędzi medycznych była bardzo ograniczona, już na początku lat 90-tych firma rozpoczęła produkcję pierwszych prostych implantów metalowych. W roku 2004 firma przekształciła się w jednostkę z osobowością prawną pod nazwą ChM spółka z ograniczoną odpowiedzialnością.

Obecny sukces firmy zawdzięczamy początkowym ograniczeniom. To one stały się przyczynkiem do ciągłych poszukiwań, samokształcenia oraz tworzenia własnej bazy badawczej. Dzisiejsza współpraca obejmuje zarówno środowisko medyczne jak i instytucje badawcze w kraju i zagranicą. 40 lat doświadczeń nauczyło nas słuchać i reagować na potrzeby dynamicznie rozwijającej się medycyny. Cały ten okres to rozwój oparty na relacjach wzajemnego zaufania. To właśnie dzięki nim możemy rozbudowywać portfolio naszych produktów.

Oferowane przez nas narzędzia to najwyższej jakości wyroby medyczne, wytwarzane zgodnie z obowiązującą wersją norm EN ISO 9001:2015 oraz EN ISO 13485:2016 i zgodne z Dyrektywą 93/42/EEC dotyczącą produktów medycznych.
Narzędzia są w specjalny sposób oznakowane kodem DATAMATRIX. Zapewnia to:

- monitorowanie miejsca znajdowania się danego narzędzia
- śledzenie narzędzia na drodze szpital-sterylizatornia
- zawarcie pełnej informacji o wyrobie na małej powierzchni
- oszczędność czasu przy organizacji pracy szpitala.

40 years
of experience

The history of the brand dates back to 1981, when Mr. Mikołaj Charkiewicz established the ChM company. In 1985 the production of first simple surgical instruments had started and a year after, in 1986, the design department was created. Its main task was to develop the design and manufacture technology of products used in orthopedics and traumatology. Although the available knowledge about materials, technology or functioning of medical tools was limited back then in Poland, the production of first simple metal implants was started in the beginning of the 1990s. In 2004, the company transformed into the ChM limited liability company.

We owe this success of the company to the initial limitations. These limitations contributed to constant search, self-education and creation of own research base. Today's cooperation incorporates both medical environment and research institutions in the country and abroad. 40 years of experience has taught us to listen and respond to the needs of dynamically developing medicine. This whole period was a time of development based on mutual trust. Thanks to this kind of relationship we are able to expend our product portfolio by creating a new solution.

The instruments we offer are medical devices of the highest quality manufactured in accordance with the applicable version of EN ISO 9001:2015 and EN ISO 13485:2016 and in accordance with Directive 93/42/EEC concerning medical products. Our instruments are marked in a special way with DATAMATRIX code. The code provides:

- monitoring of a particular instrument's location
- tracking an instrument on the hospital - sterilization path
- providing full information about a product on a small area
- saving time in the organization of hospital work.

40 лет
опыта

История бренда берёт своё начало в 1981 году, когда Миколай Харкевич основал компанию ChM. В 1985 году было налажено производство простых хирургических инструментов, а уже год спустя, в 1986 году, было создано конструкторское бюро, задачей которого стала разработка конструкции и технологии производства изделий, используемых в ортопедии и травматологии. Несмотря на то что доступные на то время в Польше знания на тему материалов, технологии и функционирования медицинских инструментов были сильно ограничены, уже в начале 90-ых годов компания начала производство первых простых имплантатов из металла. В 2004 году компания была преобразована в организацию с правосубъектностью под названием ChM общество с ограниченной ответственностью.

Нынешнему успеху компании мы обязаны начальным ограничениям. Это они стали причиной непрерывного поиска, саморазвития и создания собственной исследовательской базы. Сегодня сотрудничество охватывает как медицинское общество, так и исследовательские учреждения в Польше и за рубежом. 40-а летний опыт научил нас слушать и реагировать на нужды динамично развивающейся медицины. Весь этот промежуток времени – это развитие, основанное на отношениях взаимного доверия. Это благодаря им мы можем расширять ассортимент наших продуктов.

Предлагаемые нами инструменты – это медицинские изделия высочайшего качества, изготовленные в соответствии с действующей версией стандартов EN ISO 9001:2015 и EN ISO 13485:2016 и в соответствии с Директивой 93/42/EEC о медицинских изделиях. Наши инструменты особым образом маркированы кодом DATAMATRIX. Это обеспечивает:

- мониторинг местонахождения данного инструмента
- отслеживание инструмента на пути больница – стерилизация
- полную информацию об изделии на небольшой поверхности
- экономию времени при организации работы больницы.
