

ChM produces and distributes advanced medical solutions in 3 main divisions:

**ChM**<sup>®</sup>  
TRAUMA

**ChM**<sup>®</sup>  
TRAUMA

Comprehensive portfolio of products for traumatology, including systems designed for fractures fixation and deformities correction of extremities and pelvis.

**ChM**<sup>®</sup>  
SPINE

Wide range of advanced solutions for cervical and thoraco-lumbar stabilization of spine, including pedicle screw systems for open and MIS procedures, various interbody devices and fixation plates.

**ChM**<sup>®</sup>  
CRANIO  
FACIAL

Instruments and implants for cranio-maxillofacial surgeries, dedicated for fracture fixations, reconstructions, distractions and orthognathic surgeries.

# SCAPULA PLATES

## Design aligned with anatomy

- optimized anatomical profile
- fit to a wide range of anatomies
- facilitated anatomical reduction

## Multiple plate options

- system consists of 3 types of plates:
  - border plates - lateral
  - border plates - medial
  - glenoid plate
- lateral and medial plates dedicated for scapula body and glenoid neck fractures
- glenoid plate dedicated for intra-articular glenoid fractures

## Chamfered plate borders

- minimized soft-tissue irritation
- improved stress distribution

## Bottom undercuts of the shaft part

- limited bone-to-plate contact
- better blood circulation of periimplant tissues

## Beveled tip

- easy percutaneous insertion

## 6 proximal screws of lateral and glenoid plate

- support of articular surface
- direction parallel to articular surface for direct subchondral insertion
- enhanced fixation in multi-fragment fractures

## Compression hole

- oblong hole for plate positioning
- compression in two directions possible

## K-wire holes

- provisional plate positioning

## Multiple screw options

- non-locking, locking and VA locking screw gives multiple configuration for individual cases

## Variable-Angle screws

- high strength cobalt alloy material
- compatible with all locking holes
- 30° angulation cone
- VA screw re-lock possibility
